The unexpected is out there.

You can't predict the future, but you can prepare. We'll show you how to protect your assets, and your family.

A game plan for your goals

Our approach starts with questions and a conversation about what’s important to you. Then, we develop a financial plan with three key strategies to help you maintain your lifestyle, prepare for the future, and leave a legacy that can change the world.

The next 3 years

Liquidity

To help **maintain** your lifestyle

This strategy helps you manage cash flow for near-term expenses. It can give you the confidence to fund short-term needs regardless of the markets and helps reduce the likelihood of making impulsive investment decisions during periods of market volatility.

- Entertainment and travel
- Taxes
- Purchasing a home

4 years – lifetime

Longevity

To help **improve** your lifestyle

This strategy includes the resources you’ll need over the course of your life. It can help you gain confidence in your future by allowing you to shift your focus to meeting long-term goals rather than trying to outperform the markets.

- Retirement
- Healthcare and long-term care expenses
- Second home

Now – beyond your lifetime

Legacy

To help **improve** the lives of others

This strategy includes all of the resources for needs that go beyond your own. Having a Legacy strategy can boost your confidence by reframing risk based on specific legacy goals and longer time frames.

- Giving to family
- Philanthropy
- Wealth transfer over generations

All your bases, covered

You need a game plan to build your wealth during your playing days and post-career. We will marshal the formidable resources of UBS every step of the way, at every stage—no matter what the markets (and your life) may bring.
