What sets us apart from the competition?

MainStreet Wealth Management's mission

1. Help very successful entrepreneurs and their families make smarter decisions about money so they can spend more time focusing on what is most important to them.
2. Help women in transition move confidently to financial independence.
3. Help energy and chemical company executives and retirees.

Our wealth management formula

We use our wealth management formula to help our clients address each of their five key concerns:

1. Making smart decisions about money
2. Mitigating taxes
3. Taking care of heirs
4. Wealth protection strategies
5. Magnifying charitable gifts

Investment management

We can help you organize your financial life into three key strategies: Liquidity—to help provide cash flow for short-term expenses, Longevity—for longer-term needs and Legacy—for needs that go beyond your own.

Our S.M.A.R.T. strategy (Strategic Management of Assets for Return and Tax Efficiency) emphasizes tax optimization, ensuring you retain more of your earnings.

Financial Excellence means your investments are laser-focused on one objective: enhancing shareholder wealth. We strategically utilize investments that prioritize proxy voting, steering clear of political distractions and concentrating solely on your financial prosperity.

Investor behavior

This is one of the most important determinant of investment success because it is amplified through the other layers. Investing can be an exceptionally difficult endeavor, especially at turning points in the market—emotions can be a hurdle to successful investing. Even the best investment strategies will endure periods of underperformance or capital losses—capital growth is only possible for investors capable of enduring these periods and remaining steadfast.

Asset allocation

Building a diversified portfolio around a given risk level is the foundation of an investment strategy.

Taxes

Although taxes do not appear in published investment returns, they represent a significant headwind to long-term capital growth and a hidden headwind to tactical strategies. We consider tax implications with every tactical adjustment.

Fees

Investment fees have been trending downward for years—both through the growth of exchange traded funds (ETFs) and through falling costs in other investment vehicles such as mutual funds. We do believe in active management as a tool to lower the psychological cost of investing, and to help provide better risk-adjusted returns. For most portfolios, we recommend using a balanced mix of actively and passively managed strategies.

Time frames may vary. Strategies are subject to individual client goals, objectives and suitability. This approach is not a promise or guarantee that wealth, or any financial results, can or will be achieved.

Advanced financial planning

Advanced financial planning provides holistic, comprehensive planning services to help prioritize and attain each family's unique goals.

We provide and update financial plans for all clients.

The advanced financial plan will help address affluent clients' biggest concerns after capital preservation/growth:

Wealth enhancement: Mitigating taxes on money earned by working and through investments

Wealth transfer: Helping ensure that their heirs are taken care of wealth protection

Wealth protection strategies

Charitable gifting: Help make sure that clients' charitable gifting has the maximum impact for the client and the recipient

Relationship management

Our mission here is to build and maintain client trust through engagement, exceptional service, sound advice, effective communication, and delivery of the firm's full resources to help clients reach their goals. It is broken down into two components:

Client relationship management

Delivering our four-step consultative process

- Discovery/Re-discovery
- Plan/Recommend
- Implement
- Monitor and review*

Expert professional network

Coordinating the firm's full resources with clients' CPAs, attorneys and other trusted advisors. As a wealth manager, we review clients' complete financial picture and identify any needs. As appropriate, we then turn to our network in order to evaluate specific financial challenges and devise appropriate recommendations.

* We provide periodic monitoring of advisory accounts in accordance with the client's agreements with UBS. Unless separately agreed in writing, UBS does not manage client's brokerage account, and clients make the ultimate decision regarding the purchase or sale of investments.

Why UBS?

UBS leads the way in wealth management

Building on its history of over 160 years, UBS is committed to bringing its global resources to bear on the portfolios of high net worth individuals to help them pursue their wealth management goals. Today, as a world-leading global wealth manager¹ with \$3.3 trillion in invested assets² across the entire wealth spectrum, we are strongly positioned to help our clients address their sophisticated needs and the realities of the global economy. Our dedicated Financial Advisors deliver customized solutions to help our clients reach their goals no matter what the environment is like.

The UBS approach to managing wealth

Exclusive research. The Global Wealth Management Chief Investment Office (GWM CIO) team combines insights from global research professionals and local expertise to give clients access to our best investment thinking. Informed by a rigorous investment process, GWM CIO's insights help clients make better investment decisions in a rapidly changing global marketplace.

Global solutions. Our clients' complex needs drive the solutions we provide. We offer a great variety of solutions across a wide range of products and platforms.

Top-ranked Financial Advisors.³ To help clients pursue their ultimate goals, our Financial Advisors provide comprehensive strategies and solutions based on an understanding of clients' objectives and risk tolerance, and the financial plans they create together.

³ Many of the UBS Financial Advisors are recognized on a number of industry lists and rankings, such as *Barron's* Top 1,200, *Barron's* Top 100 and *Barron's* Top Women Financial Advisors. Accolades are independently determined and awarded by their respective publications. For more information on a particular rating, visit their corresponding website. Neither UBS Financial Services Inc. nor its employees pay a fee in exchange for these ratings. Accolades can be based on a variety of criteria including length of service, compliance records, client satisfaction, assets under management, revenue, type of clientele and more.

Strong and well capitalized

UBS remains financially strong, with solid long-term credit ratings and a Basel III Common Equity Tier 1 (CET1) capital ratio (fully applied) of 15.0% as of December 31, 2021. The Basel III framework is a global regulatory standard on bank capital adequacy, stress testing and market liquidity risk; it is designed to improve the banking sector's ability to absorb shocks arising from financial and economic stress.
