Welcome to the Revive Counseling Services 401(k) plan

Revive Counseling has partnered with the Associated Industries and UBS, one of the nation's leading retirement services to providers, for a quality 401(k) plan.

Plan Highlights

About the 401(k) Plan

Eligibility Requirements

- Age 18 or older
- Completed 1 year(s) of service

Eligibility for Match

Eligibility requirements for Discretionary, Safe Harbor Employer Match, and Profit sharing:

- Age 18 or older
- Completed 1 year(s) of service
- Profit sharing – must be employed on the last day of the plan year
- Profit sharing – completed 1000 hour(s) or more

Contribution Limits

Before Tax

- In 2025, the Before Tax amount is between 1% and 100% of your compensation or \$23,500.00, whichever is less.
- Participants turning age 50 or older in 2025, may contribute an additional \$7,500.00.
- Participants who are age 60-63 during the calendar year in 2025, may contribute the age 50 limit plus \$3,750.00.

Roth

- The Roth option will give you the flexibility to designate all or part of your 401(k) elective deferrals as Roth contributions.
- Roth contributions are made with after-tax dollars, as opposed to the pre-tax dollars you contribute to a traditional 401(k).

Eligible employees may enroll each month.

Plan Highlights

About the 401(k) Plan

Employer Contributions

Discretionary Match Contribution

- Your plan may contribute a discretionary match. This will only apply to a participant's deferrals that do not exceed a dollar or percentage amount of included compensation that is determined by on elective deferrals in the amount to be determined by the employer.

Safe Harbor Matching Contribution

- Your plan provides for a match of 100% of deferrals up to 3% of compensation and then 50% of deferrals on 3% to 5% of compensation.

Profit Sharing

- Your plan may provide for a profit-sharing contribution in an amount to be determined by your employer. The employee must be employed on the last day of the Plan year and worked 1000 hour(s) during the Plan year.

Withdrawals

Qualifying distribution events are as follows

- Permanent disability.
- Financial hardship (as defined by the Internal Revenue Code and your Plan's provisions).
- Severance of employment (as defined by the Internal Revenue Code provisions).
- Attainment of age 59 ½.
- Qualified birth or adoption
- Death (your beneficiary receives your benefits).

Ordinary income tax will apply to each distribution. Distributions received prior to age 59 1/2 may also be assessed at 10% early withdrawal federal tax penalty.

Eligible employees may enroll each month.

Plan Highlights

About the 401(k) Plan

Vesting Schedule

The value of your contributions to the plan and any earning including rollovers from previous employers, are always 100% vested.

The value of employer discretionary match and profit-sharing contributions to the plan are vested as follows:

Years of Service	Vested Percentage of Employer Contributions
0-2 Year(s)	0%
2-3 Year(s)	20%
3-4 Year(s)	40%
4-5 Year(s)	60%
5-6 Year(s)	80%
6 Years and over	100%

Loans

Your plan allows you to borrow the lesser of \$50,000.00 or 50% of your eligible total vested account balance. The minimum loan amount is general-purpose and you have up to 60 months to repay your general purpose loan or up to 180 months if the money is used to purchase your primary residence.

Rollovers

- Only Plan Administrator approved balances from an eligible governmental 457(b), 401(k), 403(b) or 401(a) plan or an Individual Retirement Account (IRA) may be rolled over to the Plan.

Eligible employees may enroll each month.

Investment Options

Target Date Funds

Target date funds consist of multiple, dynamic portfolios managed to a target year, which generally corresponds to a participant's planned retirement age. Target date funds offer a long-term strategy based on holding a mix of stock, bonds and other investments that automatically changes over time. The asset allocation mix of the portfolios becomes more conservative as the target date approaches, which can make these funds an attractive investment option for plan participants who do not want to actively manage their retirement savings. The shift in the asset allocation over time is called the fund's glidepath.

Target date funds are funds where the target date is the approximate date when investors plan to start withdrawing their money. Generally, the asset allocation of each fund will change overtime, with the asset allocation becoming more conservative as the fund nears the target retirement date. **The principal value of the fund(s) is not guaranteed at any time, including at the target date.**

Asset Allocation Models - Vanguard

Asset allocation is the disciplined process of strategically dividing your money among a range of asset classes, such as stocks, bonds and stable value investments, each of which have different risk and return characteristics. (See the following pages for a description of each asset class and the risks typically associated with each.)

Taking into consideration your goals, time horizon and tolerance for risk, you can develop a focused, disciplined approach to investing that can help you pursue individual goals within your risk profile.

For Vanguard Investors may choose to invest in any of the four LifeStrategy funds based on personal objectives, time horizons, risk tolerances, and financial circumstances

- Vanguard LifeStrategy Income Fund
— Seeks current income.
- Vanguard LifeStrategy Conservative Growth Fund
— Seeks current income and low-to-moderate growth of capital.

- Vanguard LifeStrategy Moderate Growth Fund
— Seeks growth of capital and a reasonable level of current income.
- Vanguard LifeStrategy Growth Fund
— Seeks growth of capital.

Asset Allocation Models – American Funds

How does asset allocation work?

Asset allocation works on the principle that investments in various asset classes will react to changing markets with materially different rates of return and levels of volatility. Volatility risk is the risk that the value of your investments will fluctuate over time and could drop in value. For example, while one investment may suffer a decline due to market fluctuation, another investment may simultaneously increase in value and offset the decline.

For the American Funds Portfolio Series:

The objective-based framework for the American Funds Portfolio Series mirrors the way investor's view and handle their personal finances. This allows them to divide their assets based on their needs and goals. The underlying funds in each of these portfolios were carefully selected and tested to pursue real-life investment objectives.

American Funds managed portfolios take into account investors' goals, objectives, time horizons and appetite for risk. This approach provides you with a number of choices in tailoring investments to pursue specific goals, such as saving for college and retirement, reducing taxes and generating income in retirement.
